Definitions of Grades

The results of the GCSE examinations are reported on an 8-point scale of grades: A*(a*), A(a), B(b), C(c), D(d), E(e), F(f), G(g). Candidates who fail to reach the minimum standard for G(g) receive no grade and a subject receiving no grade is not recorded on the certificate.

Double Award in Science

The results in these syllabuses are reported on the 8-point scale and the grade is recorded **twice** on the certificate to indicate that the results in these syllabuses have the same status as GCSE grades in **two** other single certification subjects.

Speaking and Listening in English

The assessment of English incorporates the assessment of Speaking and Listening. The results of the Speaking and Listening assessment are shown separately and are reported on the 8-point scale, with grade A* indicating the highest level of attainment and grade G the lowest. The grade for Speaking and Listening is not a GCSE subject grade but represents an integral part of the overall assessment of GCSE English.

The Speaking and Listening result is recorded on the certificate provided that both the overall GCSE English result and the Speaking and Listening result are grade G or higher.

GCSE (Short Course)

The Short Course is designed to cover not less than half the syllabus content of the corresponding full GCSE subject course of study and the same grading standards are applied. The GCSE (Short Course) is, therefore, broadly equivalent to half the corresponding full GCSE.
